# DANBY TOWN OBSERVER

Unofficial Reports of Board Meetings,  
Submitted by Joel Gagnon

## (Town) New Truck Purchase

The Town Board voted to solicit bids to purchase a new dump truck for the Highway Department. Highway Superintendent Andrew Thurnheer developed the specifications based on his extensive experience with custom fabrication and design. As specified, the new truck will have a stainless steel box and aluminum wheels for corrosion resistance and a "long nose" engine compartment for ease of service.

Bids are due to the Town Clerk by noon on July 6.

## (Town) Subdivision Regulation Changes Voted Down

On a 3-2 party line vote, the Board failed to pass proposed changes to the Subdivision Regulations that would have removed provisions calling for delineated conservation areas for subdivisions in the Low Density Zone. The changes would also have added an option for creating lots by permit (lots 15 acres or larger with no restrictions; small lots limited to one in any 5-year period). Instead, the Board voted to send the matter to the Planning Board for their recommendation.

The proposal originated with the Comprehensive Plan Implementation Task Force and was in response to concerns raised just prior to the June 2003 passage of the open space protection package of regulations for the Low Density Zone. The proposal was revised in early 2006 to respond to concerns raised by the then newly-elected Republican members of the Town Board.

Because of an objection by the County Planning Department to the lots-by-permit provisions, a supermajority in favor would have been required for passage, therefore the Republican minority members were able to block its passage.

## (Planning) Recommendation on the Subdivision Regulation Changes

In response to the Town Board request for a recommendation on the proposed changes to the Subdivision Regulations, the Planning Board recommended that the small lots-by-permit remain one in any 5-year period.

They also recommended that the minimum size for the creation of lots without frequency restrictions be reduced to 10 acres from the 15 acres in the rejected proposal.

Because the modification recommended by the Planning Board would be a substantive change, a public hearing is required before the Town Board can reconsider the recently-rejected proposal for Subdivision Regulation changes.

## (Planning) Flag Lots

The Planning Board was also asked to look at the Comprehensive Plan Implementation Task Force proposals for flag lots. Discussion was deferred to the next meeting, after Board members have had a chance to study them.

Since language has yet to be crafted to enable the concepts developed by the Task Force to be considered for incorporation into the Subdivision Regulations, action on this matter is some time off.

## (Planning) Hamlet Planning

The Planning Board briefly discussed how they will tackle this matter. They charged themselves with coming up with a list of ideas to serve as the basis for discussion at the next meeting. ❁

## PRESCRIPTION ASSISTANCE

Medicare beneficiaries can now get extra help with prescription drug costs!

Fran Spadafora Manzella, the Information and Referral Call Center Manager at the Tompkins County Human Services Coalition, suggests that seniors who haven't yet applied may want to consider contacting the Tompkins County Office on Aging (607.274.5482) or Lifelong (607.273.1511) to obtain greater information on the different prescription drug plans available through Medicare or for assistance with the application process. General information is also available from Information and Referral (607.272.9331).

To apply for Medicare prescription assistance, seniors need to know and have documentation of their income and assets. Income is limited to \$15,315 for an individual or \$20,535 for a married couple living together. It is possible, in some circumstances, to obtain assistance even when income exceeds those limits.

Other resources, such as bank accounts, and stocks and bonds are limited to \$11,710 (individual) or \$23,410 (married couple); cars and houses are not counted as resources. ❁

The Planning Board has scheduled the following public hearings to run consecutively beginning at 7:00pm. A regular meeting of the board will follow the public hearings.
